VARIEDS

Forward Looking Statements

This presentation contains forward-looking statements (as defined in Section 27A of the Securities Exchange Act of 1933, as amended, and in the Section 21E of the Securities Act of 1934, as amended) concerning future events, the Company's growth strategy and measures to implement such strategy, including expected vessel acquisitions and entering into further time charters. Words such as "expects," "intends," "plans," "believes," "anticipates," "hopes," "estimates" and variations of such words and similar expressions are intended to identify forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. These statements involve known and unknown risks and are based upon a number of assumptions and estimates that are inherently subject to significant uncertainties and contingencies, many of which are beyond the control of the Company. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, changes in the demand for drybulk vessels, competitive factors in the market in which the Company operates, risks associated with operations outside the United States and other factors listed from time to time in the Company's filings with the Securities and Exchange Commission. The Company expressly disclaims any obligations or undertaking to release any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company's expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.

ASSET MANAGEMEN

FLEET EMPLOYMENT

- ✓ Balance of long-term vs. spot charters
- Cooperation with established performing charterers
- Long-term period time charters provide visibility in future cash flows
- Selective early redeliveries receiving significant cash compensation reducing third party risk
- Substantial upside potential for the coming years

✓ Outperforming BPI

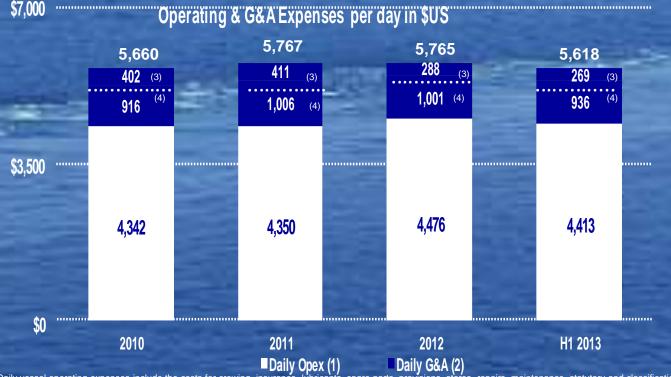

- SAFEBULKERS
- * Source Baltic Exchange
 ** Safe Bulkers data
- *** Data as of August 19, 2013 and including vessels to be delivered that have already been chartered-out.

HOW DO WE RUN OUR BUSINESS?

- ✓ Hands-on approach
- ✓ Competitive operations compared to industry as demonstrated by our daily Opex and G&A
- High fleet utilization rate
- Experienced team in operations, technical support and newbuild supervision
- ✓ Sister-ship high quality vessels

(1) Daily vessel operating expenses include the costs for crewing, insurance, lubricants, spare parts, provisions, stores, repairs, maintenance, statutory and classification expense, drydocking, intermediate and special surveys, tonnage taxes and other miscellaneous items. Daily vessel operating expenses are calculated by dividing vessel operating expenses by ownership days for the relevant period

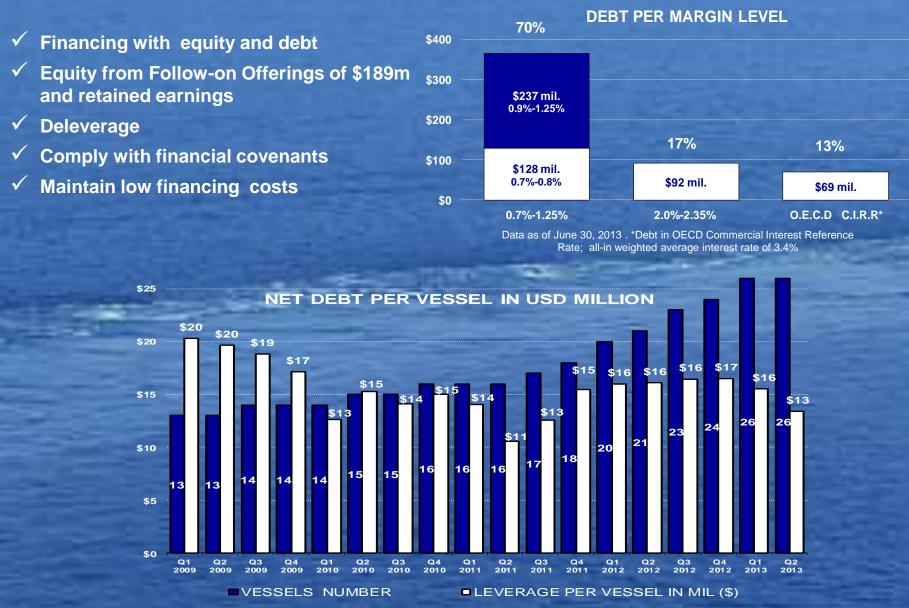

(2) Daily general and administrative expenses in US\$ include daily management fees and the costs payable to third parties in relation to our operation as public company defined below. Daily vessel general and administrative expenses are calculated by dividing general and administrative expenses by ownership days for the relevant period.

(3) Daily public company expenses include the costs payable to third parties in relation to our operation as public company divided by ownership days for the relevant period
 (4) Daily management fees include the fixed and the variable fees payable to our Manager divided by ownership days for the relevant period.

LEVERAGE

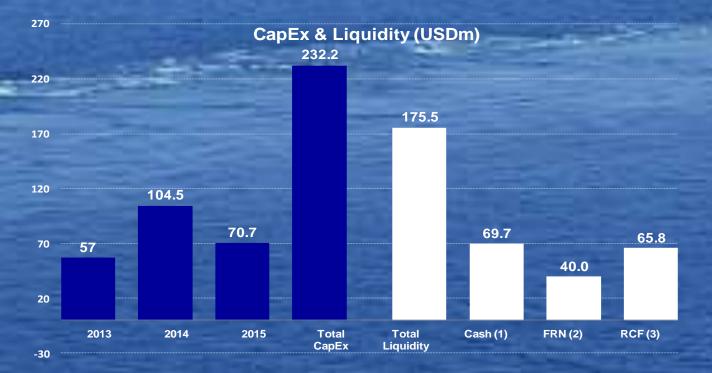

Data as of June 30, 2013. Net debt per vessel consists of total debt less cash, time deposits, restricted cash, long-term floating rate note and advances for newbuilds divided by number of vessels "in the water" as of quarter end. Assumption: Contracted value of newbuilds equals market value.

LIQUIDITY

- ✓ Strong balance sheet.
- ✓ Substantial liquidity to finance CapEx Program.
- ✓ Ability to raise additional indebtedness against 7 newbuilds and 1 second hand upon their delivery.
- \checkmark Surplus from operations not accounted for.
- ✓ In July 2013, we took delivery of *MV Xenia* and *MV Zoe* and paid USD37.9m of CapEx.

(1) Cash, short-term time deposits and restricted cash

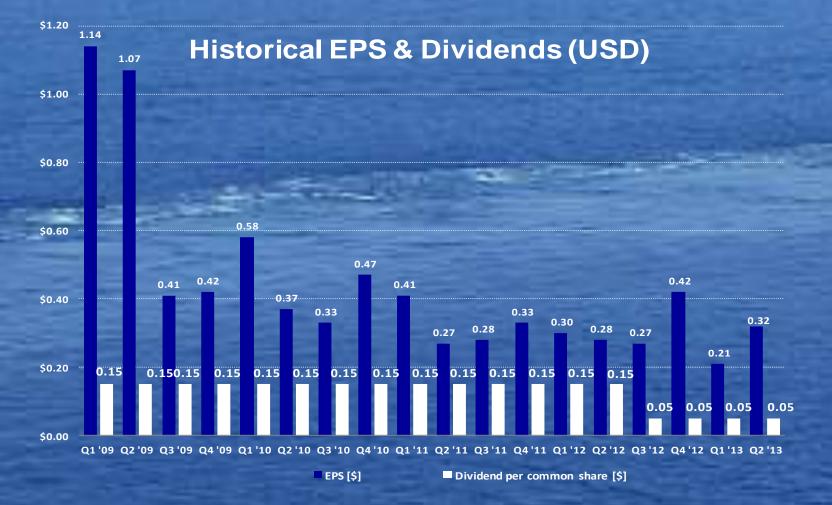

(2) Remaining undrawn availability against our long-term floating rate note (FRN) of \$50 Million from which we may borrow up to 80% under certain conditions (3) Available under existing revolving reducing credit facilities (RCF)

EPS AND DIVIDENDS

✓ \$191.3 million declared and paid in 20 Consecutive Quarterly Dividends since Company's IPO

The declaration and payment of dividends, if any, will always be subject to the discretion of the Board of Directors of the Company. The timing and amount of any dividends declared will depend on, among other things: (i) the Company's earnings, financial condition and cash requirements and available sources of liquidity, (ii) decisions in relation to the Company's growth strategies, (iii) provisions of Marshall Islands and Liberian law governing the payment of dividends, (iv) restrictive covenants in the Company's existing and future debt instruments and (v) global financial conditions. Accordingly, dividends might be reduced or not be paid in the future.

Demand

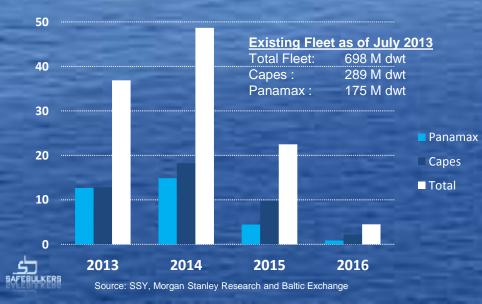

- Charter market has remained active and picked up for capes despite the summer period. Panamax rates are ranging between \$7,000 to \$9,000 for the first 8 months of 2013
- Capes outperformance is mainly attributed to the record imports of iron ore from China reaching 73,1 million tones for July 2013.
- Chinese steel production accelerated in July, causing iron ore imports to grow 26% YoY, while iron ore stockpiling remained low.

Adjusted Net Income represents net income before gain/(loss) on derivatives and foreign currency. Adjusted Net Income available to Common Shareholders represents Adjusted Net Income less Preferred Dividend.

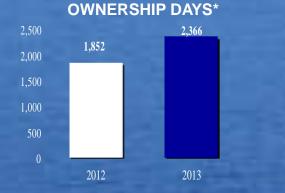

EBITDA represents net income before interest, income tax expense, depreciation and amortization. Adjusted EBITDA represents EBITDA solves of advistiges and foreign currency. EBITDA and adjusted EBITDA are not recognized measurements under US GAAP. EBITDA and adjusted EBITDA assist the Company's industry that provide EBITDA and adjusted EBITDA information. The Company believes that EBITDA are useful in evaluating the Company's fundamental performance from period to period and against the fundamental performance of other companies in the Company's industry that provide EBITDA and adjusted EBITDA information. The Company believes that EBITDA are useful in evaluating the Company's operating performance compared to that of other companies in the Company's industry because the calculation of EBITDA generally eliminates the effects of financings, income taxes and the accounting effects of capital expenditures and acquisitions and the calculation of adjusted EBITDA generally further eliminates the effects of early redelivery income/(cost) and gain/(loss) on derivatives and foreign currency, tiems which may vary for different companies for reasons unrelated to overall operating performance.

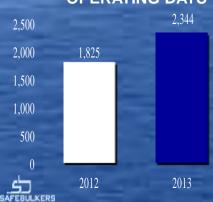

EBITDA, adjusted EBITDA, Adjusted Net Income, Adjusted Net Income available to Common Shareholders and Adjusted EPS have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analysis of the Company's results as reported under US GAAP. EBITDA and adjusted EBITDA should not be considered as substitutes for net income and other operations data prepared in accordance with US GAAP or as a measure of profitability. While EBITDA and adjusted EBITDA and adjusted EBITDA and adjusted EBITDA are frequently used as measures of operating results and performance, they are not necessarily comparable to other similarly titled captions of other companies due to differences in methods of calculation.
